

THE REPUBLICAN ADDRESS.

We print in full in this issue the admirable Address of the Republican State Central Committee. As a political document it is worthy of being read and carefully considered by every voter no matter to what party he may belong. It sets forth principles about which there should be no disagreement—the establishment of fraternal relations among all sections of the Union, an object which is most devoutly to be desired by all classes of the people. Another point set forth in this address is an approval of the restoration of our Civil Service to a higher standard of excellence. While the public offices as a rule are held by men of high character who are abundantly competent for their positions, yet the old Jacksonian theory that "to the victors belong the spoils," has very many times been prostituted to base purposes. While all parties will and doubtless should reward its friends, yet the old rule, "Is he honest, is he capable?" should also be in all cases rigidly adhered to.

The attempt of the Democratic party in the House of Representatives not only to demoralize, cripple and paralyze the military arm of the government in refusing to vote it needed supplies, and the furtherance of the same body, as shown by its votes, to pay out of the treasury the expenses of rebels in arms against the government which gave them its protection, are also clearly pointed out in this address, and the people are called upon to justly rebuke these pernicious designs which are calculated to prostrate the interests of honest industry and to swallow up by reckless legislation the hard-earned savings of the frugal and saving classes. The address boldly and clearly demands that all classes and conditions of people in all the states shall be protected in their rights, and in this sentiment all good citizens will give it a hearty approval. No more "white line organizations," no more "bull-dozing," no more shoot-gun rule, no more intimidation by revolvers in any section of the Union. Protection to all and liberty to all. The Address, with all good citizens hail the approach of the time when the government shall return to specie payments, thus taking us, as a Nation, a long stride towards the good times which we all, as a people, most earnestly desire. With a return of specie payment will come the unlocking of untold thousands of wealth in the land which have been hoarded, owing to the general fluctuation in values which was a necessary result of two distinct kinds of currency. With specie payment will come a return of confidence in business transactions, and countless thousands of dollars will then seek investment in all classes of business, and thus we shall rapidly approach the dawning of a better day in business, which with our abundance of silver as well as gold, we shall be able to maintain as a government.

The Address shows that the Democratic House of Representatives not only succeeded in crippling the army, and in looting into positions as officers of that body a large number of rebel soldiers in the room of disabled and crippled Union soldiers, but also voted as a party to repeal the tax on whisky and tobacco, which had it succeeded, would have thrown the tax now raised from those luxuries, upon either the necessities of life, or upon the industries of the laboring classes.

The Republican Committee shows by their able Address that the Democratic party in Wisconsin by its action last year by "approving and advocating a system of irredeemable currency has forfeited all claims of confidence and support of those who are in favor of an honest and stable financial currency," and that the investigation of the Potter Committee in so far as it has proved anything, has clearly shown that the action of the Electoral Commission in seating President Hayes was in conformity with law and justice in the case. The Address, as a whole, and the suggestion that Congress should take some action to amend the Constitution in order to make better provisions for the election of President and Vice President, is timely and to the point. The Address opposes further grants of public lands to corporations, and is opposed to the public school fund being used for sectarian schools. It is a clear, able and sound document, and should have a wide circulation. The action of the Central Committee in inviting the Legislative Committee to meet with it in its next meeting, shows that the two Committees are acting in harmony, and that they will work shoulder to shoulder in the campaign, as they should, for a substantial victory.

There are many strange theories connected with the Greenback movement. One more ridiculous even than Butler's donation of a farm to every idle working-man, is that of Kearney, the California fraud, who is a disciple of Butler, and who is now agitating the minds of the laboring-men in the East. He is down on the land "monopolists," the great farmers and land-owners of the country, and calls them bloodsuckers, and in appealing to the passions of the more ignorant of the working-men of the East, he declares that they must be crushed and their lands divided up among the poorer classes. Probably all Greenbackers do not believe in this theory, but those who do—the Socialists or the Communists—are Greenbackers as a rule, though a few are Democrats. So Kearney and his Greenback-Labor-Reform followers are in favor of "corraling" and "grinding" the land blood-suckers. Let us see how strong the land "monopolists" are in Wisconsin—how much they own, and the average number of acres in the farms of this class which a prominent Greenbacker calls "monopolists" and "bloodsuckers." In 1870 there were 102,-

YELLOW FEVER.

Its Progress Northwest—Cases in Cincinnati—Memphis Quarantine—Precautions at Cairo and Elsewhere.

CINCINNATI, August 1.—The Enquirer has an account of two more cases of yellow fever here, one of which has proved fatal, the victim being a colored man named Banks, who has lived here constantly for ten years. The case will be the occasion of more alarm than the one reported a few days since, as the man had not been out of the city for many months, and must have received the germs of the disease here. He was a laborer, living on the river bank, and probably became infected on some of the New Orleans steamers landing there. The other case is that of a laborer from New Orleans, named Hatch. Mr. Hines, the New Orleans merchant, is lying very low at the hospital. He is watched constantly by his devoted wife, and receiving all attention possible from the hospital officials. His recovery is doubtful. Considerable excitement prevails, and the strictest quarantine regulations, will, it is expected, be enforced. MEMPHIS, Tenn., August 1.—Quarantine against freight and travelers from New Orleans and Vicksburg is being rigidly enforced. Freight by rail is being detained ten days at Watchman, Mississippi, and by river at President's Island quarantine. At a meeting of the Board of Health the following action was taken: Resolved, That the health officers be empowered to employ three agents to act as detectives at Grenada, Mississippi, Grand Junction, and Milan, Tennessee, to notify all passengers coming from New Orleans that they will not be permitted to enter the city of Memphis. Resolved, That no passengers, or baggage from New Orleans by steamboat or rail, will be permitted to enter the city of Memphis until further notice. NEW ORLEANS, La., Aug. 1.—The Board of Health reports twenty-two new cases and seven deaths for the past twenty-four hours. CAIRO, Ill., Aug. 1.—Since the arrival of the Porter last evening our authorities have been busy inspecting boats and trains from the South but no yellow fever has yet been found. The weather yesterday and to-day has been fearful. A number of cases of sun-stroke have been reported. A reporter for the Chicago Times, and Mr. Nally, of the Bulletin, were stricken down last night but they had prompt attention and are all right. A number of other cases are reported, but none fatal. LOUISVILLE, August 1.—Fondy Carrell, steamer on the steamer Mary Houston, a New Orleans packet, arrived a week ago and is sick in New Albany with a pronounced case of yellow fever. He is recovering under treatment. The steamer has been fumigated.

The game law in which so many are interested, has been amended by chapter 193, general laws of 1878, so that it now reads as follows: Section 1. No person shall catch, kill or otherwise destroy, or have in his possession, or expose for sale in this State, between the 1st day of January and the succeeding 25th of August, in each year, any woodcock, quail, grouse, prairie hen or prairie chicken, partridge, or ruffed grouse, under the penalty of \$10 for each said game bird caught killed or destroyed, or had in possession or exposed for sale.

Doolittle stock does not seem to stand high in Chicago, at least the Chicago press puts it away down. For instance, young Doolittle is running for Congress on the Democratic ticket, and yet he has not the support of a single paper in the city. The Times says "the candidacy of Doolittle Jr., assures the return of Aldrich by an increased majority. The work of dividing up the Doolittle family between Wisconsin and Illinois has not paid, politically."

The State printing contract was awarded on Thursday to General David Atwood of the State Journal, he being the lowest bidder. The bids were as follows: D. Atwood, 56 cents off the maximum; E. B. Bowles, 55; Madison Democrat, 43½; M. J. Cantwell, 33½. It will be seen that the General narrowly escaped defeat.

The New York Herald: The seventeen tramps who, at considerable inconvenience to themselves, visited Buffalo yesterday to attend the races, have not been disappointed in their expectations that they would be warmly received and hospitably entertained. They will have an opportunity to study the workings of the county prison system for the next couple of months.

GERMANY'S ELECTIONS.

The Result of the Late Election for Members of the Reichstag.

BERLIN, August 1.—The latest returns from the elections for members of the German Reichstag show that there have been elected forty-seven Conservatives, seventy-two National Liberals, nineteen Progressives, thirty-five Ultramontanes, two Alsatian irrecconcilables, two Alsatian Autonomists, three Socialists, eight Poles, and one Particularist. Thirty-six second ballots are necessary. VIENNA, August 1.—The Austrian vanguard has arrived at Banjalaka, Bosnia. The Turkish officials and the Austrian Consul General have fled from Sarajevo on account of the menacing attitude of the populace. It is stated that the troops after crossing the River Sava were fired upon by United Mohammedan and Christian bands who are expected to occupy the desolates leading to Herzegovina as the Austrians advance. PRAGA, August 1.—The Austrian occupation of Bosnia and Herzegovina threatens a Ministerial crisis in Constantinople. The Minister of War and Minister of Public Instruction are strongly opposed to the occupation, and think it should not be submitted to without a formal convention. The Grand Vizier, Ismet Pasha, who wishes to avoid difficulties with Austria, is at variance with his colleagues. VIENNA, August 1.—It is rumored that General Todleben refuses to withdraw a man from the vicinity of Constantinople before the withdrawal of the British fleet. Difficulties are also reported in regard to the return of Turkish prisoners of war. LONDON, August 1.—Alluding to the delay of Turkey in ratifying the treaty of Berlin, a Vienna correspondent mentions a telegram from Constantinople, saying, that intrigues had been discovered aiming at the overthrow of Saliut Pasha, and return to the San Stefano treaty, and a Russian protectorate. The dispatch says the Sultan was at no time inclined to shield the project.

DESTROYED BY FIRE.

SALT LAKE, August 1.—The mining town of Alta, in Little Cottonwood, was almost entirely destroyed by fire this afternoon. Loss unknown.

A LITTLE CRAFT

From Beverly Arrives, Safe on the Other Side of the Atlantic.

LONDON, August 2.—The American boat Nautilus arrived yesterday in Mount's Bay, an inlet of the Atlantic, on the coast of Cornwall, situated between the Horns of Cornwall, two promontories which terminate respectively in the Land's End and Lizard Point. The crew, consisting of two brothers, William and Walter Andrews, of Boston, which left Beverly, Massachusetts, June 12, landed in the village of Mullion, Cornwall, appearing greatly fatigued. They give a very interesting account of their perilous and adventurous voyage. For a few days after leaving the American coast they experienced pleasant weather; but this pleasant state of things quickly changed, fogs, wind, and rain prevailing for a considerable period. Their bed clothes got quite wet, and for four weeks they had to sleep in their wet clothes. On the fourth of July they had the luxury of a bottle of lager beer, which they had kept specially for that day. For eighteen days they never saw the sun, and could take no observations. They were often so close to the whales as to be able to touch them, but hesitated to do it through fear of getting their little boat upset. On July 1st the sea ran mountain high, putting their little craft in imminent danger, and imposing on them the most strenuous exertions and the most sleepless vigilance. They underwent, during a portion of the time some really terrible weather, and at one period were literally between life and death. Their chronometer got broken and was rendered entirely useless, and they encountered tremendous difficulties and dangers. July 25th was decidedly the worst day of the voyage, the weather being simply terrible. During the whole of the voyage such sleep as they were able to get was very disturbed, and was more like a sort of continuous stupor. This was, perhaps, the most trying trial they had to go through, as they were so fatigued that they could scarcely keep their eyes open. Neither of them had ever crossed the Atlantic before.

On July 13 they took the first observation they had been able to make for eighteen days. When they made Scilly Light they were very much exhausted, and hove to in Mullion roads on Wednesday night. William seems to feel the strain most. Walter looks better, but had a bad hand, caused by so much steering. The whole passage occupied forty-five days. The two brothers will leave for Hayre as soon as the weather permits, after having a little necessary rest. They will visit the Paris Exhibition before returning to America.

WASHINGTON.

Pardon of Charles Young—The Four Per Cent.

WASHINGTON, August 1.—The President has pardoned Charles Young, who was the partner of Eph Holland in the Cincinnati election frauds, by which Banning was sent to Congress. All these repeaters have now been pardoned, mainly through the influence of Stanley Matthews. August opens up with an unprecedented sale of four percent bonds, the amount subscribed for to-day being over \$2,500,000. There are now nearly \$113,000,000 of these bonds in the hands of subscribers.

MILWAUKEE CORNER.

MILWAUKEE, August 1.—There is nothing additional to report in regard to the July corner in wheat, McGeech was subjected to round abuse on Change to-day by the "shorts" whom he had accused of babyism in appealing to the Board of Arbitrators. He passed several times, but no blows were exchanged.

LILIPUTIAN.

GRAND RAPIDS, Mich., Aug. 1.—Grand Rapids boasts of the most diminutive piece of humanity born in the State, a female infant, weighing at birth sixteen ounces, and is now eleven days old, in which time it has gained half an ounce. The physicians pronounce it perfectly healthy. The parents, Mr. and Mrs. Bennett, are of average size, and have a boy three years old, who weighed at birth ten pounds.

Milestones on the Road to Health.

The recovery of digestion and the resumption of activity by the liver, bowels and kidneys are milestones which mark our progress on the road to health. They speedily become perceptible when Hostetter's Stomach Bitters is used by the invalid. Nothing so surely and expeditiously consumes the distance to the desired goal. As no bodily function can suffer interruption without impairing the general health of the system, so the system can never acquire perfect vigor, health, syzygium, until that function be actively resumed. Take, for instance, digestion, a suspension of which is invariably rectified by the Bitters. If the organs upon which it devolves grow weak, biliousness, constipation, headache, poverty of the blood, and a hundred other symptoms supervene, which indicate unmistakably the baneful general influence of dyspepsia. The disappearance of all these symptoms through the use of the Bitters is a sure and certain guarantee that it removes their cause. j330edwlv

My residence, will take in exchange a smaller house, in part payment. This is a chance to get a nice home. ROYAL WOOD. j342dwlmo

REPUBLICANISM.

The First Gun of the Congressional Campaign in Wisconsin.

The Stirring Address of the State Central Committee.

Political Law and Gospel for the People.

The following is the Address issued by the Republican State Central Committee:

The Republicans in the seven Congressional districts of the State are about to nominate candidates for representatives in Congress. They have also to present candidates for members of the Legislature which will elect a United States Senator. The decision of questions of the highest importance in their bearing upon the welfare and prosperity of the whole country is involved in the result of the next elections. They will determine whether or not the legislation of the country shall pass under the control of the party now dominant in the House of Representatives, a party which seeks to postpone indefinitely the resumption of specie payments; which propose to reduce taxation upon whisky and tobacco and thereby to cast additional burdens upon the industry and enterprise of the country; which, in the interest of mob violence and lawlessness, seeks to paralyze and destroy the military arm of the Government; and which threatens to add hundreds of millions to the public debt, in payment of claims for property destroyed by the armies of the United States in the course of necessary and legitimate military operations in communities which were waging war for the destruction of the Union.

All good citizens should co-operate in rebuking these pernicious designs, and in assuring the signal overthrow of the party which claims to be the champion of the people. It is especially important that there should be harmony of action among Republicans. It is not to be expected that uniformity of sentiment can be secured among large aggregations of individuals upon more than a few points of primary importance. In all political action carried forward by the agency of party organization it is necessary to overlook many minor differences of opinion. But every political party, worthy of respect, must be composed of members united by a community of conviction respecting certain leading questions and measures affecting the common weal. Otherwise, party organization degenerates into a mere machine for the promotion of personal ambitions and selfish intrigues, and as such is made apparent, it justly forfeits the sympathy and support of intelligent and upright citizens. A party, which, like the Republican party, aims to secure the co-operation of the best and most enlightened members of the community, must present a clear, distinct and unambiguous programme. It must dare to stand forth boldly in support of what it believes the right even at the hazard of temporary defeat. It cannot afford to encourage false principles, or acquiesce in mischievous and delusive measures, though the current of popular opinion may seem, for the moment, to be running in their favor. Such a course, may assure a temporary success but is certain to terminate in permanent disaster. We must trust largely in the real integrity of the people, not assuming that majorities are always in the right, but with faith that the majority desire to be right, and are capable of being convinced by facts and arguments addressed to their reason and conscience. In conformity with these views, and in the hope of promoting consistent and harmonious action by the Republicans in the several districts of the State, we take the liberty of submitting the following propositions, expressing the sentiments of this committee, and, in its opinion, suitable to be embodied in a platform upon which the party may go into the approaching canvass and both achieve and deserve success.

First—Adherence to the principles affirmed in the resolutions adopted by the National Republican convention of 1876, and to the sentiments expressed in Mr. Hayes' letter concerning the nomination of the Presidency. While frankly recognizing the existence of honest differences of opinion among Republicans respecting certain features of the policy of the present national administration, difficulties arising largely out of an anomalous political situation and the difficult nature of the questions upon which the issue is called for the moment, or paper controversy at par into gold or silver at the pleasure of the holder—the only secure foundation of permanent business prosperity. Such a currency will impart that steadiness to prices which is an essential condition for the successful prosecution of legitimate industry and enterprise, and is equally demanded by the true interests of the laborer, the business man and the capitalist.

Fourth—The value of all paper currency, whether issued by the Government or by banks, consists in the promise which it bears of payment and in the degree of credit attached to that promise. If it cannot be converted at pleasure into currency of intrinsic value—gold or silver—it can not remain at par, and its depreciation will be in proportion to the prospect of its being thus convertible within a longer or shorter period. The printed list of paper which some wild theorists propose to employ as currency, and which they term "absolute money," containing no promise of payment and no intrinsic value, would speedily become "absolute" in one respect only—they would be absolutely worthless. This and all the other chimerical projects by which it is proposed to find a cheap and worthless substitute for the measure of the value accepted and employed by the civilized world, are based upon a decision if not dishonesty, and if adopted would result in disaster and shame. We hold it to be the duty of Republicans, and of all good citizens, to oppose, with uncompromising firmness, all these mischievous theories, as well as the cognate doctrines of communism and internationalism, which menace society,

individual liberty, and the accumulated savings of industry. Fifth—The Democratic party in this State, by approving and advocating a system of irredeemable paper currency, has forfeited all claims to the confidence and support of those who are in favor of an honest and stable financial policy. The Democratic party of the country by the action of its representatives in Congress, has shown itself destitute of statesmanship, of patriotism, of honesty. It has neglected the general welfare, and, in the hope of gaining votes, has courted the favors of the worst elements of society. We denounce the spirit shown by the Democratic majority of the House of Representatives in attempting to disarm the National Government, in seeking to debauch the currency and arrest all progress toward a healthy and normal financial basis, in displacing Union soldiers in order to reward those who have fought against the Union; in voting for a large reduction of taxes on articles like whisky and tobacco, rendering necessary increased taxation upon other industries; and in voting to repeal, in the interest of illicit distillers, a law enacted during the administration of Andrew Jackson for the protection of revenue officers of the United States, leaving them exposed in States like North Carolina, to the fury of local prejudice and passion, with no protection but the doubtful justice of local tribunals and juries; and we call upon the people, who hailed with joy the final adjournment of a body which kept the country in constant apprehension by its reckless and mischievous designs, to administer a fitting rebuke to these profligate and ignorant legislators at the next election.

Sixth—The investigation respecting the last Presidential election, unfair and one-sided as it has been, has wholly failed to disclose any improper action on the part of President Hayes, and so far as it has thrown any new light on that election has confirmed the justice of the decision by which he was awarded the Presidency. That it was not undertaken from any real regard, on the part of the majority of the House, for popular rights, is proved by their careful suppression of all inquiry respecting Democratic frauds, and by their repeated and cynical disregard of the popular will shown in unseemly Representatives, fairly and legally elected, to make better provision for the election of President and Vice-President.

Seventh—We are opposed to further grants of the public lands in aid of corporations; we are opposed to any sectarian control of party organization; we are supported in whole or in part by the school fund, or by taxes levied upon the people; and we favor the strictest economy in all expenditures of the public money, which is consistent with an enlightened regard for the general welfare.

NEW ADVERTISEMENTS.

Lawrence University,

APPLETON, WIS.

An institution for both sexes. Classical and Scientific Course. Preparatory and Academic Departments. With Commercial, Law, Schools of Music, and of Painting and Drawing. One of the best equipped and at the same time most efficient colleges in the West. Has a wide reputation for good scholarship and a high moral tone. Fall term begins Sept. 1st, and continues to June 1st. Address G. M. Steele, President.

BRIEFLETS.

—August too is hot.
—Fix the sidewalks.
—More base ball this afternoon.
—A big concert at Court Street church to-night.
—Rev. Mr. Seales has returned from his vacation.
—Rev. Mr. Sanderson has returned from his trip East.
—Mr. Potter, of Cambridge, paid the city a visit to-day.
—The Temple of Honor holds a regular meeting this evening.
—The Janesville Guards meet to muster in next Monday night.
—A new sidewalk is being built in front of Tom Lynch's meat market.
—Coal is being shoveled into the school buildings for next winter's use.
—There were only two interments in Oak Hill Cemetery during the month of July.
—The Court Street Sunday School are talking of an excursion, picnic, or some other summer sport.
—The Fire Department is having an easy time of it, but no one is sorry. Hot enough without any fires.
—Marshall Keating's wife and children start to-day for Lake City, Minnesota, for a brief visit and for recreation.
—Mr. Moffitt, of the Harris Manufacturing Company, returned to-day from a very successful business trip through Minnesota.
—We saw a gang of men at work this morning one-third of whom were one-armed. There were only three however, in the gang.
—King Brothers have completed their arrangements for occupying Ford's new building next to the postoffice as a book-store and newsroom.
—The Bower City Boat Club at their regular meeting last evening talked over matters in general but took no definite action of any public interest.
—A tramp laid down for sleep last night on the sidewalk near Mr. Jerome's residence in the First ward. He had a big club with him for a room-mate.
—The proposed excursion to Milwaukee, of the Knights of Pythias and the Bower City Band cannot yet be definitely decided upon, but will probably take place.
—The Standard, of Chicago, lately gave the Rev. Mr. Roberts a highly complimentary notice, and speaks equally highly of the Baptist church here, of which he was the late pastor.
—From the general complaints made against the Waukesha umpire in yesterday's base-ball game, it would seem that he ought to be bedded with Waukesha water—jumped into it head first.
—Nothing has been heard of late concerning the petition which was being circulated for the pardon of Bill Canary. It has probably found a nestling place in the gubernatorial waste basket.
—The premium list of the twelfth exhibition of the Rock County Agricultural and Mechanical Society has just been issued in most convenient form, from the press of friend Baker, of the Post.
—Miss Lottie Chittenden, who is visiting friends in Waupun, is assisting there in arranging for "The Mistletoe Bough," in which she took a prominent part in its late production at Lippin's hall, in this city.
—Milwaukee street presents a lively appearance as far as building is concerned. The gang of men at work on Mitchell's curbing, on Cook's block, and on Ford's building, makes the street look as if good times were here again.
—Little Mary Thomas, the nine-year old pedestrian of this city, has accepted a challenge given by William Kerr, to walk a 25 mile match for \$100 a side, and Milwaukee has been selected as the place of the contest. It will take place Thursday, August 8.
—Arch bishop Henri has recovered from his stroke. The bishop is getting quite old, and rather infirm, and on account of the large amount of work on his hands, it is expected that he will soon have an assistant. Bishop Spalding, of Illinois, is talked of as the probable choice.
—V. Van Vleet, M. D., and wife, of New York City, are here on a brief visit with their uncle, A. M. and Guy Carter. They visited the cotton factory to-day through the kindness of F. S. Eldred. They leave for Nebraska the 6th inst., and return to New York about September 1st.
—Mrs. Jennie Kempton arrived last evening, and will meet those who desire to take vocal instruction, to-morrow morning at 9 o'clock, at Prof. Woodell's old room. A number of our best musicians intend to avail themselves of her presence here, and will probably close the course with an entertainment.
—A report was abroad on the streets to-day that John Watson, who is engaged in building a railroad near Norway, had been badly injured by an explosion of powder, and had been taken to Wilton for medical treatment. The report started from the fact that another Watson was thus injured about two weeks ago at that place, but John Watson is in usual health.
—A young fellow from beyond the city limits sat down in a chair in front of Ehle's store this afternoon and went to sleep. Some of the malicious jokers, after shouting in vain for "tickets," "change cars," etc., finally aroused the sound sleeper by firing off a pack of fire-crackers under the chair. He slowly aroused, took in the situation, and hastily decamped. Several horses in the vicinity became frightened, and for a time it seemed that there would be a half-dozen items of news.
—A short time ago one of Janesville's business men was summoned to Whitewater to answer to a charge made against him by a girl who was employed as servant in the family. The case was continued until further evidence could be secured. Last Sunday the evidence came in such a way as to relieve the merchant of all further suspicion of guilt. A bouncing baby was born, completely knocking to pieces the girl's sworn statement as to the time when she fell into trouble. It is now evident

that it must be some other man, and as she has already tried to fasten the paternity on two different men, the case will be dropped.

AFTER WATER-WORKS.

The Committee Starts its Work by the Passage of Two Important Resolutions.—Another Meeting To-Night.

The first meeting of the Citizens' Committee on Water-Works was held last evening at the Council Chamber, there being present Andrew Palmer, H. S. Hogoboom, F. S. Eldred, James Sutherland, J. W. Nash, and O. B. Ford. Messrs. Hiram Merrill, Anson Rogers, Cyrus Miner, and J. J. R. Pease were absent.

The meeting was called to order by Mr. Andrew Palmer, the appointed Chairman, and on motion, Mr. H. S. Hogoboom was chosen Secretary.

After some informal discussion the following resolution was offered by Mr. Sutherland, and on being seconded by Mr. Eldred, was unanimously adopted:

Resolved, That the health and prosperity of the city of Janesville will be promoted by the construction of a judicious system of water works.

After the passage of this resolution there was considerable discussion on various other features of the subject, and particularly on the question of who should build such works. The matter was finally disposed of by the unanimous passage of the following resolution, presented by Mr. Sutherland:

Resolved, That we are opposed to their construction by the city, but would recommend that the city enter into arrangements for their construction by some reliable company under proper limitations and restrictions.

There was some discussion as to the advisability of allowing the proceedings to be published, but it was at last decided to let the matter be reported by the press, it being deemed better that the citizens should be kept posted on the action of the committee from time to time, so that there would be a general discussion among the citizens, and those who had any suggestions to offer to the members of the committee could do so.

The Committee adjourned to meet again to-night, when the discussion will be continued. After the Committee have settled upon one point after another they will incorporate their decisions and opinions into a formal report. It will require several meetings before their work will be completed, and then a citizen's meeting can be called for the ratification or rejection of the report.

VALIANT VETS.

Those who Propose to Enter the Ranks Again.—The Organization to be Performed.

The Veterans are going to muster in at an early date and have already elected their officers as given in the Gazette some days ago. The following are the names of those who have already enrolled themselves, and there are others who will doubtless join the ranks. The chance is still open to all those who have served in the late war and who have been honorably discharged. The rolls now contain the following names:

John Andrews, T. Jackman, George H. Brown, S. B. Kenyon, Joseph Bear, James Kurar, C. J. Baker, J. B. L. Grange, B. H. Baldwin, Lucius Lee, W. R. Bates, Charles H. Lee, Charles E. Brown, Mark Langley, B. M. Bucklin, A. F. Lee, William W. Bettrill, O. H. Mead, John W. Belton, G. E. McDonald, Oliver G. Church, W. G. Metcalf, John Curran, Ambrose Pierson, F. A. Cheney, John Pinner, William Carle, George Phelps, E. L. Clyde, Sherman Phelps, E. F. Currier, Alden Robinson, H. A. Campbell, John Rowen, H. B. DeLong, C. J. Schott, Charles Ehrlinger, Richard Skelley, George Ehrlinger, John Spalding, E. E. Edgington, Cornelius Stout, John Flieger, Albert Shiller, Charles Gookey, Jas. A. Spencer, J. J. G. (G.), W. H. Tousey, George Wilson, L. W. Goodfrey, Henry Watson, W. H. Hilt, George W. Hurlbut, H. B. Walker, B. R. Hilt, N. B. Wing, John W. Herrington, William Watson, F. W. Heath, Emil Wiegler, Charles Heath, George Viney, Mildred Ide, Frankirk.

OBITUARY.

WILLIAM H. CHURCH. About 2 o'clock this morning, after an illness of only a few weeks William H. Church, of Rock, passed into rest. During the intensely hot weather of last month, Mr. Church was at work in the harvest field, and became oppressed by the heat, and never recovered from its effects, having been confined to the house since then. His death has been expected for several days, and this morning the fatal end came. Mr. Church settled here in 1850, and was at the time of his death only 36 years of age. He was widely acquainted in this city, he being here almost every day during the busy seasons. All who knew him esteemed him highly for his warm cordiality to friends, and his sterling integrity in all business transactions. He was a kind husband and industrious worker, and a pleasant neighbor, and his death will prove a great loss to the community in which he lived.

He was a brother of Alderman James Church, and leaves a wife but no children. The funeral services will be held at the residence of the deceased next Sunday forenoon at 11 o'clock, and will doubtless be attended by many sympathizing friends and neighbors.

BASE BALL.

The Waukesha came, saw and were conquered by the Mutuals yesterday, the score being 25 to 13 in favor of the home nine. The game dragged drearily along, and neither club showed any particular strength. The most of those who were present were dissatisfied with the game, and with the umpire. The same clubs are at it again this afternoon.

The Boston scored 3 and the Milwaukee 2 in yesterday's game. The Indianapolis nine defeated the Forest City's at Cleveland yesterday by 4 to 2.

THE WEATHER.

The thermometer at 7 o'clock this morning stood at 76 degrees above zero, and at

2 o'clock at 88 degrees above. Clear. One year ago to-day at corresponding hours the thermometer stood at 68 and 80 degrees above.

The indications to-day are for the lake region, clear or partly cloudy weather, light, variable winds, mostly westerly, stationary or higher pressure and temperature.

OAK HILL CEMETERY.

The following interments have been made in Oak Hill cemetery during the month of July 1878:

July 21—Mrs. W. W. Holden, Janesville, age 52 years.
July 31—David Noggle, Janesville, age 68 years, 9 months.

CITY NOTICES.

It Costs Less

To use Spalding's than any other brand. A few drops only are needed, and when regularly applied to the teeth it is not only beautifying, but healthful. Much other adorning is dangerous, but this never. In the sick room or on the toilet, it is equally welcome.

By using Spalding's Glue on the first appearance of a defect in the furniture, it will prove itself to be the most economical thing about the house.

LOCAL MATTERS.

Ladies and Gents will always find the nicest and cheapest Box and Staple Stationery in the city and Sutherland's Bookstore, No 23 Main street.

A CARD.

To all who are suffering from the errors and infirmities of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. McKim, Station D, Bible House New York City.

Liver is King.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is diseased in its proper action, all kinds of ailments are the natural result. The digestion of food, the movement of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been conclusively proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want. Decidedly 1878.

"The First Dose Gives Relief."

Trials of Dr. Swayne's Compound Syrup of Wild Cherry, 25 Cents.

The distressing cough, which threatened serious results, is quickly cured before developing a fatal pulmonary affection. For all throat, bronchial and lung disorders, Asthma, or Bronchial affections, Hooping Cough, Liver Complaint, Blood Spitting, &c., no remedy is so prompt and effective as "Dr. Swayne's Compound Syrup of Wild Cherry."

"I have made use of this preparation for many years, and it has proved to be very reliable and efficacious in the treatment of severe and long standing coughs. I know of no other remedy so comfortable health, and who but for its use I consider would not now be living."

ISAAC H. HERBES, M. D., Straunston, Berks county, Pa. Price—Trial bottles, 25 cents; large size, \$1.00, or six for \$5. A single 15 cent bottle will oftentimes cure a recent cough or cold, and thus prevent much suffering and risk of life. Prepared only by Dr. Swayne & Son, Philadelphia. Sold by leading Druggists.

Excessive Heat.

And unwholesome diet at this season of the year may speedily carry you to the grave. Parker's Ginger Food, by its corrective action on the digestive apparatus, will not only neutralize the cure Diarrhoea, Dysentery, Cholera, Cholera Infantum, Colic, Cramps, Spasms, etc., but will prevent those dangerous disorders from attacking the system. It may save your life, and should always be kept in the house. This pleasant remedy is unequalled for teaching children, nursing mothers. Possessing many additional virtues of other valuable foods, it is far superior to any other food, without their constipating effects, and while more invigorating than Benger's never intoxicates, nor creates any desire for stimulants. It cures Dyspepsia, and its varied symptoms of Headache, Nervousness, Palpitation of the Heart, Wakefulness, Sour Stomach, Costiveness, Liver Disorders, Furred Tongue, Low Spirits, Neuralgic and Rheumatic Pains, enables one to enjoy the fruits and vegetables of the season without fear, and gives comfort after a hearty meal. Buy a 15 cent bottle of your druggist, A. J. Roberts, or a sample bottle at 15 cents, and test its extraordinary merits. jydawewtepp

If Baldness or a Deficiency of Hair exists, or if the hair is gray, dry or harsh, the natural youthful color can be restored by using "London Hair Color Restorer," the most delightful article ever introduced to the American people for increasing its growth, restoring its natural color, and at the same time a lovely hair dressing and beautifier. It is totally different from all others; not sticky or greasy, and free from all impure ingredients that render many other articles objectionable; in fact it is exquisitely perfumed, and so cleanly and elegantly prepared as to make it a lasting hair dressing and toilet luxury.

J. A. JONES, A PROMINENT CITIZEN. Wilson, N. C., writes: Some ten years ago my wife's hair commenced falling, and got very thin and turned gray; but after using "London Hair Color Restorer" the scalp began to heal, the hair stopped falling, the color was restored, and is now growing beautifully.

Ask your druggist for London Hair Color Restorer. Price, 75 cents a bottle. Six bottles, \$4. Main Depot for the U. S., 339 North Sixth St., Philadelphia.

"Dobbin's Electric Soap."

Having obtained the agency of this celebrated Soap for Janesville and vicinity, I append the opinion of some of our best people to its merits. I have washed with Dobbin's Electric Soap, made by L. L. Crain & Co., Philadelphia, Pennsylvania, and pronounce it the best soap I have ever used. The rapidity and ease with which it enables one to do one's washing is really surprising. Boiling the clothes is entirely unnecessary and no rubbing is needed. I would not be without it.

NALLIE KENNEDY. I have no hesitation in saying that no housekeeper should be without Dobbin's Electric Soap. I can heartily recommend it. It is a charm in the wash.

As a time, labor and money saving article, I take pleasure in recommending Dobbin's Electric Soap to my neighbors. It promises freedom, and does all it promises.

MARY YONKINS. I take pleasure in calling attention to the testimonials, as we have just made arrangements with the manufacturers in Philadelphia, so that we can supply the trade at their lowest Philadelphia price.

GROUSE W. HAWES, Sole Agent.

COMMERCIAL.

JANESVILLE MARKET.

REPORTED FOR THE GAZETTE BY RUP & GRAY GRAIN AND PRODUCE DEALERS.

JANESVILLE, July 31.

Flour—Patent \$1.75 per sack; Minnesota per sack; Wisconsin \$1.40 per sack.

Buckwheat Flour 2.50 per 100 lbs.

Rye Flour—\$1.50 per 100 lbs.

Wheat—Good to best milling spring 95¢ 00 shipping grades 70¢ 00

Buckwheat flour 2.50 according to quality and brand—dull at 75¢ 25 per bushel.

Barley—50¢ per 100; 80¢ per 100; Buckwheat per ton \$7.00

Meal—Coarse, 80¢ per 100; bolted 80¢ per 100

Condition—80¢ 00 per 100 lbs. Ton \$30

Timothy Seed—70¢ 00 for 40 lbs according to quality

Rye—in good request at 45¢ 00

Barley—Choice samples at 60¢ 00 per 50 lb common to fair quality 30¢ 00

Corn—new shelled per 50 lbs, 33¢ 34, new do new ear 30¢ 34 for 50 lbs

Oats—good local and shipping demand 20¢ 22c mixed 20¢ 21c

Coconut Palm—50¢ per 100 lbs. Ton \$30

Timothy Seed—70¢ 00 for 40 lbs according to quality

Clover Seed—dull at 35¢ 50 per bushel

Potatoes—new 50¢ 55c per bushel. Other varieties 30¢ 25c

Butter—good demand at 21¢ 12c

Eggs—plenty at 20¢ 00 1/2c

Hides—Green, 50¢; salted 40¢; Dry, 12¢ 1/2c

Wool ranges at 40¢ 1/2c; 1/4 off for unwashed

50¢ 1/2c; Hams at 50¢ 1/2c each

Dressed Hogs—well to butchers at 35¢ 50 per 100 lbs for light and heavy

Lard—Stock—Cattle \$3.00 23¢ 75 per 100 lbs; Hog, 34¢ 23 75 per 100 lbs

Poultry—Turkey, 62¢ 75; Chickens 52¢ 00

The agricultural bureau at Washington reports that the wool clip of 1878 is about 3 per cent greater than the predecessor. New England fell off about 1 per cent, the three middle states 3 per cent, the Pacific states 9 per cent.

All other sections show an increase. The four south middle states (Delaware, Maryland, Virginia, and West Virginia) 1 1/2 per cent; the four south Atlantic cotton states (North Carolina to South Carolina) 1 1/2 per cent; the six west cotton states (Alabama to Tennessee) 1 1/2 per cent; the north central states west of the Mississippi 1 per cent.

The heavy decline on the Pacific coast is due to the great increase in California and the great increase in the southwest was in Texas.

The Liberty, Florida, correspondent of the department reports that the clip of that county indicates an increased weight per fleece, and an improved character of fibre. In Walworth, Wisconsin, the fleece is mostly long staple and strong fibre. A considerable weakness in price is indicated.

Milwaukee Grain Market.

MILWAUKEE, August 1

Flour—quiet and held firm.

Wheat—firm; opened 1 cent higher, and closed firm; No 1 Milwaukee hard \$1.13; No 1 Milwaukee 1 1/2; No 2 Milwaukee, 1 05; July 13; August 100¢; September 95¢; cents; No 3 Milwaukee at 90 cents

CORN—No 2 20¢

OATS—No 2 24¢ 1/2

BARLEY—No 2 spring 21 04

PORK—mess 9 75¢ cash

LARD—prime steam 7 25¢

CATTLE—Range at 4.00, 4.50 according to quality and grade.

For LIVE HOGS—40¢ 3/4

SHEEP—Range at 25 to 30 according to condition and weight.

SEEDS—Timothy 1 05 1/2; clover 1 30; clover 4 45

BEANS—17 00 1/2

BUTTER—Range from 10 25 to 14¢

EGGS—7 25¢ fresh
